FREE RESOURCE: ART & CRAFT - MAKE A FUN & FUNKY CARDBOARD OWL

If you're looking for an easy and fun craft activity to go alongside learning all about owls, this project is perfect for all ages to have fun with.

You will need:

Cardboard toilet roll tube

White, coloured or patterned paper

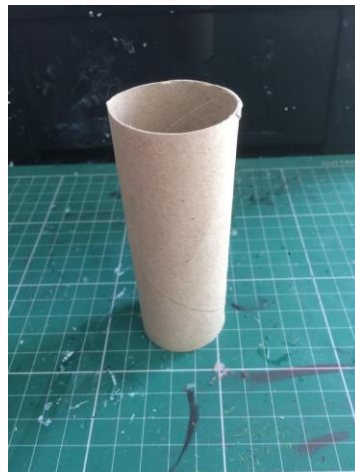

Scissors

Glue (PVA or glue stick)

Pens, pencils, paints, glitter, feathers – anything you can find to decorate your owl!

Method:

1. Measure the height of your cardboard tube (this one is 11cm tall) and cut a strip of paper to fit around it. Make sure it can wrap around the whole tube with a little bit of overlap.

2. Cover the cardboard tube in glue and carefully roll the paper around it. Allow the glue to dry before moving on to the next stage – you can prepare several tubes in one go if you like!

3. Pinch one end of the tube to flatten it slightly, and then draw a semi-circle on it. We used a 5cm cookie cutter as a template. Cut this out, and use this semi-circle as a guide to cut out a second one on the other side.

4. Decorate your cut out semi-circles with coloured pens, pencils, crayons, paint, glue, glitter – whatever takes your fancy! These will be the wings of your fun & funky owl.

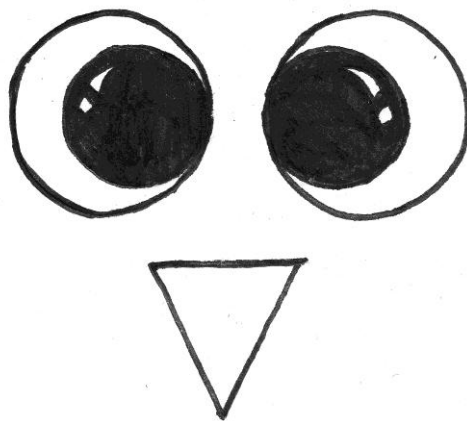

5. Decorate your owl's body, again by colouring it in or sticking glitter, feathers or cut out bits of paper onto it, and then attach the wings with some glue.

6. Colour in and cut out the eyes and the beak pieces below and glue them into place on your owl – do the beak first and then stick the eyes over the top.

Eyes & Beak Template:

When you've finished, why not take a picture and post in on our Facebook page at www.facebook.com/thefalconrycentre - we'd love to see your artwork! We'll share the best ones for everyone to see.
